

Design Criterion

The #1800 **Diplomat** is designed as a continuous seating system. The requirements to have the function, comfort and appearance of a single seating unit was accomplished with tight joints, straight lines, closed backs and relaxed seating standards. All the standard seating options such as ganging hardware, bookracks, card and pencil holders, communion cup holders, kneelers and frontals are available. Units are light weight, easily stacked and moved. Complimentary fabric - frame colors create a consistent appearance yet still offer economy. Additional options include six frame colors and a wide variety of decorator fabrics.

Material Specifications
