

## Design Criterion

The #2600 "Craftsman" is designed as a light-weight, easily-stacked, movable and totally-flexible seating system. The requirements to have the function, comfort and appearance of a continuous seating unit was accomplished with tight joints, straight lines, closed backs and relaxed seating standards. The wood frame adds warmth and friendliness to any environment. Additional options include multiple sizes, nine stain selections and a wide variety of decorator fabrics.

### Material Specifications
