

Design Criterion

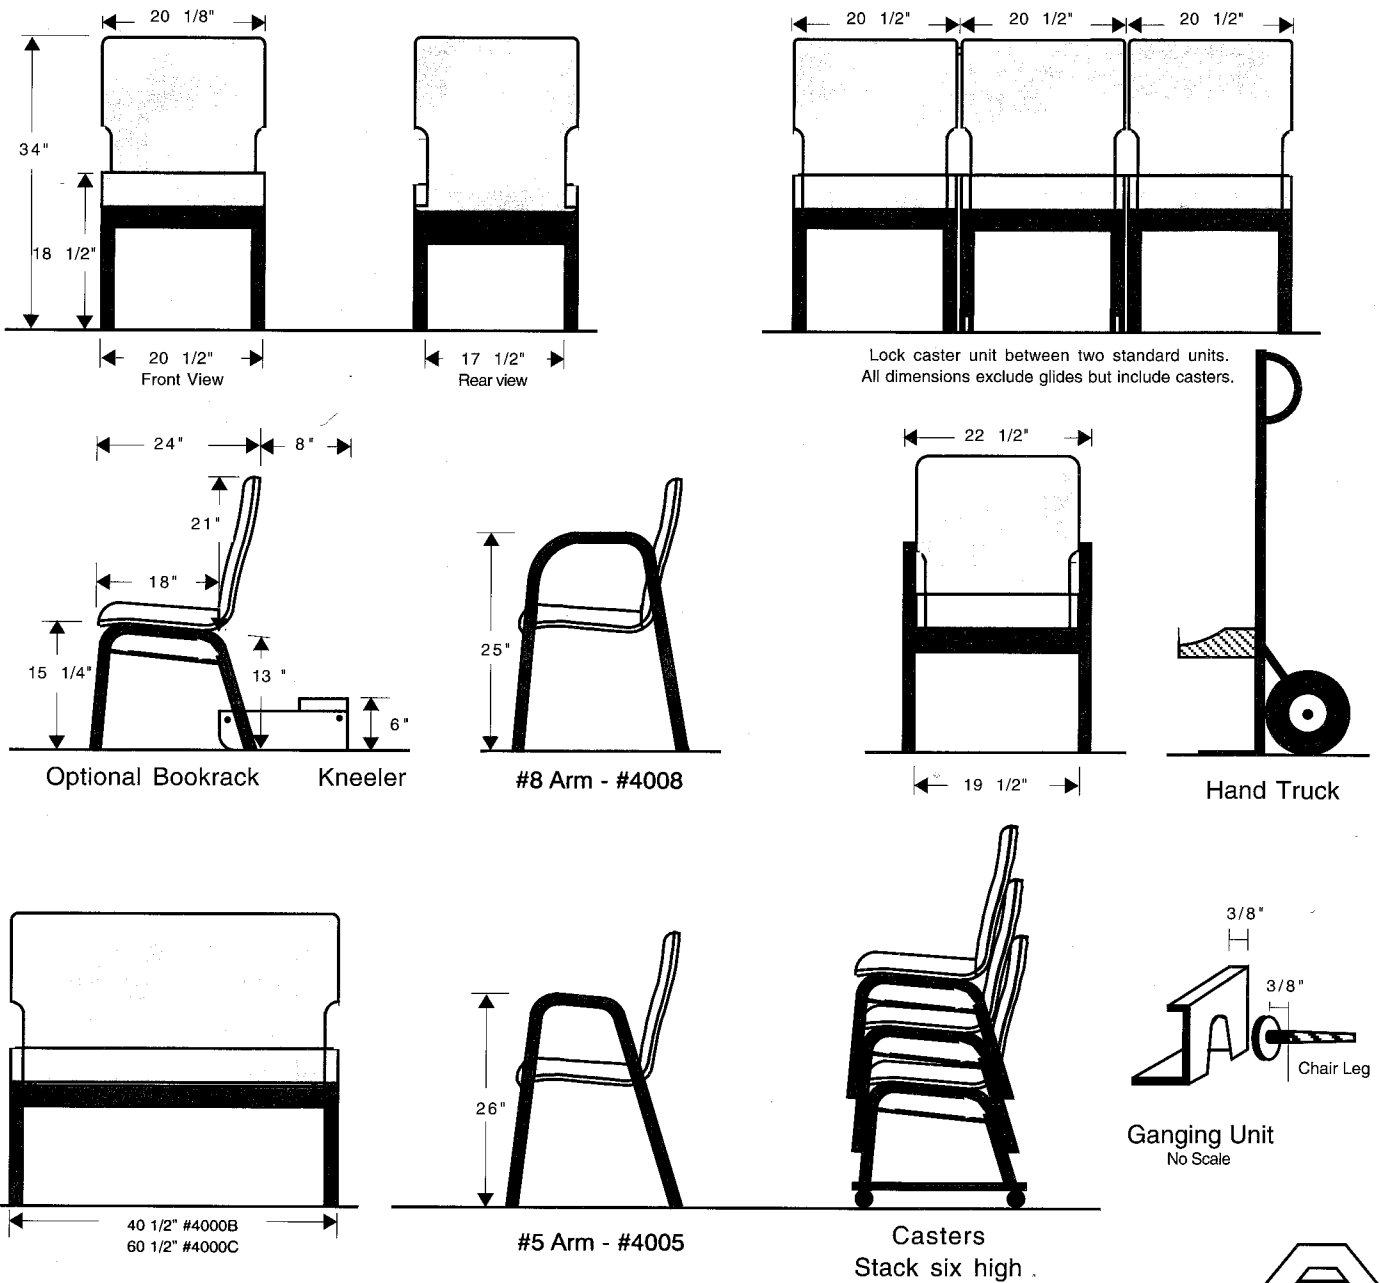

The **Millennial #4000** was designed to celebrate the new century. It's a redesign of Chancellor's original #1050 **Veteran** marketed since 1978. The requirements to be a seating system that forms a continuous seating unit was accomplished using an upholstered plywood unibody. The extra tall back and deep seat communicate an immediate sense of excellence. The soft lines give the **Millennial** its graceful character. The tight joints offer refinements not normally found in stacking chairs. The closed in back brings safety, modesty and a sense of simplicity to the seating unit. Units are light weight, easily stacked and moved. The wood frame adds warmth and friendliness to any environment. Additional options include multiple sizes, nine stain selections and a wide variety of decorator fabrics.
