

## Design Criterion

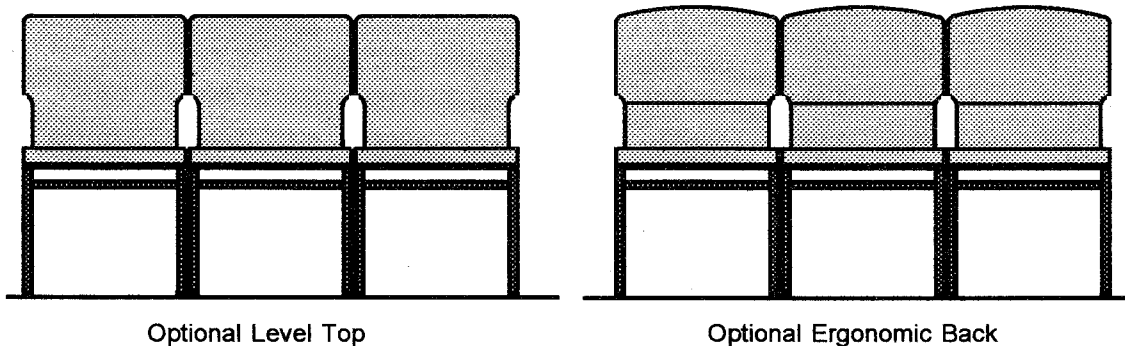

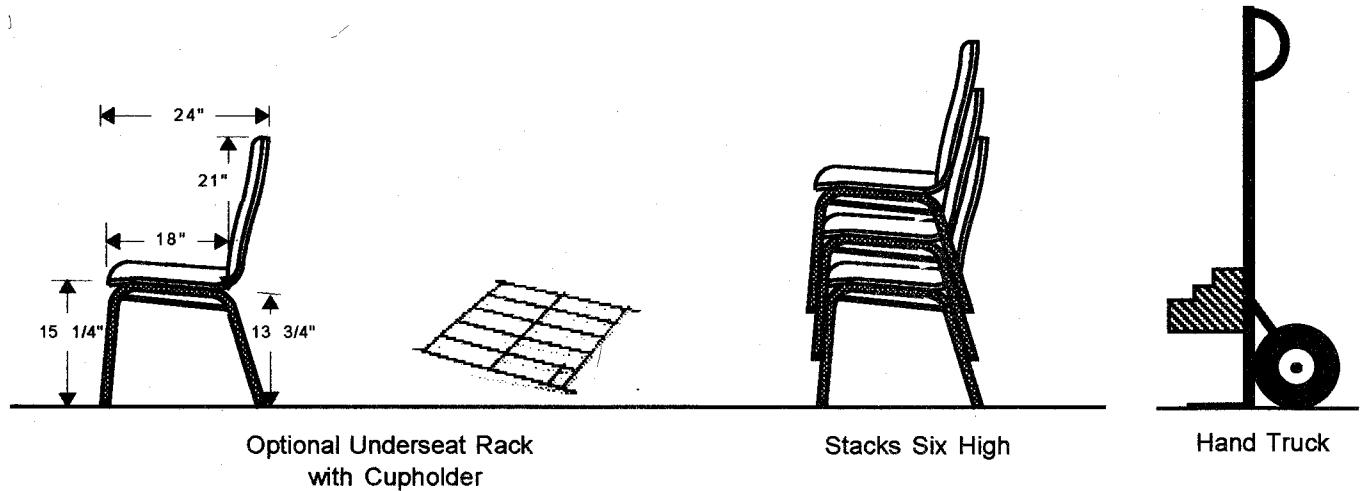

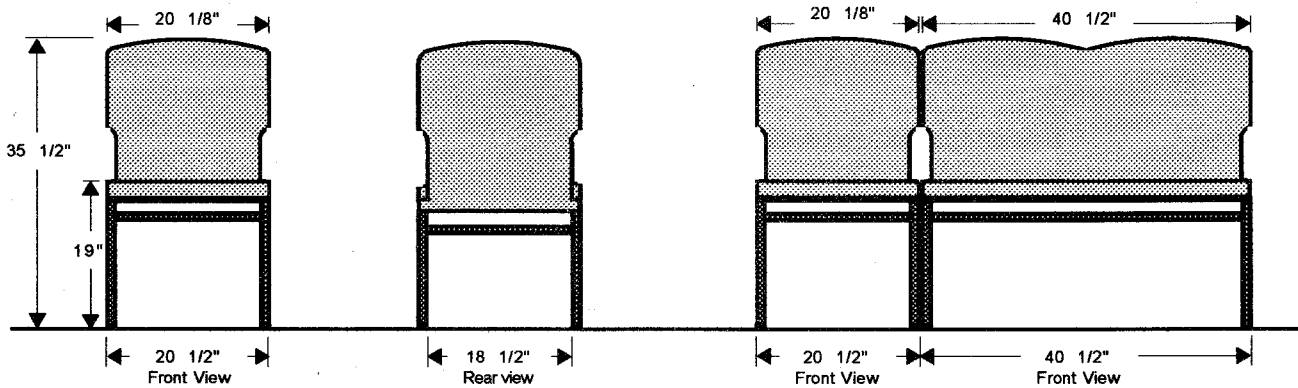

The **Prodigy #5300** was designed to be a stacking chair system that forms a continuous seating unit or functions well as single units. The requirements to have a simple elegance was accomplished using an upholstered plywood unibody. The soft lines give the **Prodigy** its graceful character. The closed in back brings safety, modesty and a sense of wholeness to the seating unit. All the conventional seating options such as underseat racks, ganging hardware and hand trucks are available. At 22 lbs, units are light weight, easily stacked and moved. Additional options include six metal colors and a wide variety of decorator fabrics.

## Material Specifications

Item	Dimensions	Material	Foam	Fabric	Finish
Back	2 x 19 1/2	3 Ply, Upholstery Grade	1 1/4"	1.37yds	Fabric
Seat	2 3/4 x 19	3 Ply, Upholstery Grade	3"		Fabric
Legs	1" x 1"	Square tube, 18 guage			Powder Coat Epoxies
Body	1/2 x 20 1/8 x 34	7 Ply Upholstery Grade			Fabric
Crossbrace	3/4"	Square tube, 18 guage			As Selected
Hardware	Ganging Units	Steel			As Selected
Finish		Powder Coat			2 Colors
Bookrack	1/4 x 14 x 17	Solid Rod			Black
Freight class	"A" =125	Weight 22 lbs, Carton Weight 26 lbs
